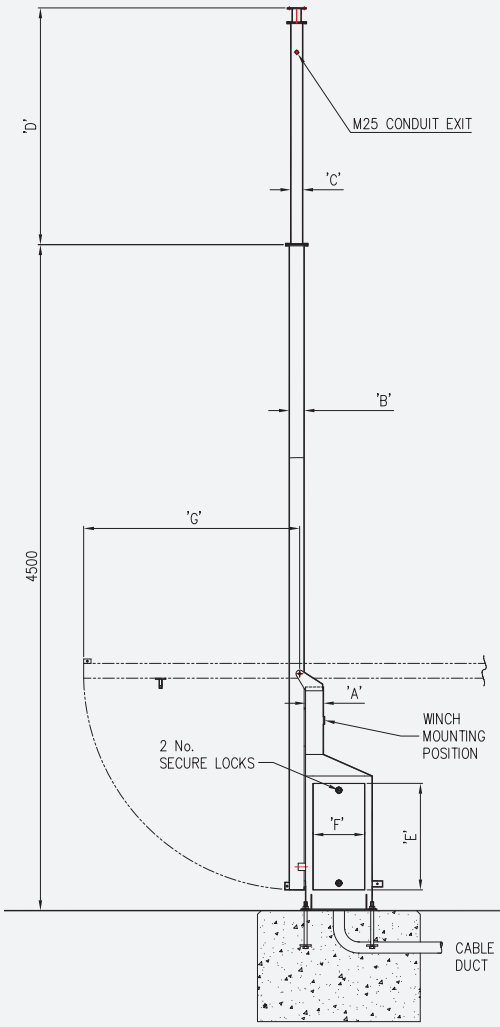
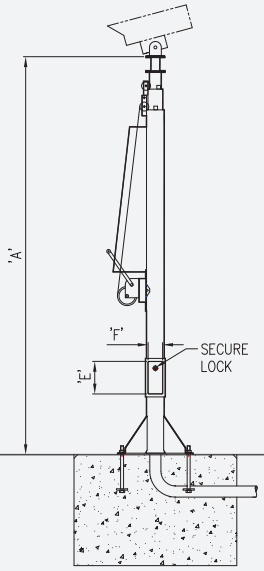
AW1697 Cabinet Base Column

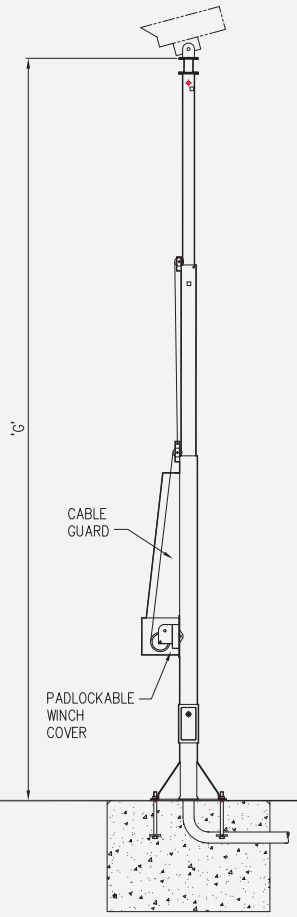


Tilt down columns are fixed in the vertical position with an M20/M24 nut screwed onto the column retaining bolt which enters into the secure access hatch through the front of the post. This is then padlockable to stop unauthorised tilting.

ACC Telescopic Column



All camera mounting plates are DIA 127 with 8 No Ø 8.5 equi-spaced on 101.6 PCD. Ø 40 thro' column spacer



Telescopic column suitable for restricted site access locations. E.g Railway yards/platforms where camera needs to be serviced at ground level
